Experience

River Dell Technology Department: Assistant IT Technician
Summers: 2016, 2017, 2018

Over my high school summers, I worked as an Assistant IT Technician at River Dell Regional School District's IT department. My responsibilities include imaging Windows devices, assisting in installing and sustaining network devices, and assembling various accessories throughout the campus.

Hack River Dell: Co-founder, Director of PR & Sponsorships
June 2016 - January 2018

I co-founded and organized a student-run hackathon for two straight years at my high school. I gathered sponsors through outreach to private sector, handled miscellaneous logistics and expenses, and created design and branding for the event.

River Dell Board of Education: Student Liaison
September 2017 - June 2018

I was selected by school faculty to be a student representative on the board of education. While a student liaison, I presented the latest accomplishments of the students and provided my own insight prior to decisions being made by the board.

Activities

Terrapin Hackers: Member
September 2018 - Present

The Terrapin Hackers is the the University of Maryland's official hackathon team. As a member of the Terrapin Hackers, I engage in computer science projects and travel to compete in hackathons with the team.

TerpsVote: Member
September 2018 - Present

TerpsVote is a coalition under the UMD Student Government Association, promoting civic engagement at the University of Maryland. As a member of TerpsVote, I work to promote voting participation among young people at the university and in the community.
